

The Director of Education has prepared a multi-year strategic plan for Board approval. The Director has provided for input by students, staff, school councils, the Parent Involvement Committee, and community stakeholders. The strategic plan provides a system-wide understanding about the purposes that give meaning and direction to the staff of Limestone District School Board. The plan provides common goals, and articulates how the board will achieve these goals. Strategic plans are never complete, but are works in progress. The strategic plan will be continually revised and refined.
